

Erasmus Policy Statement

Vyšší odborná škola, Střední škola, Centrum odborné přípravy as a higher vocational education institution is improving its international relations and international cooperation. Its focus on cooperation with European higher vocational education institutions and universities is a key subject of the school strategy. The school goal is to promote international mobilities of students and staff. The school priority is to offer more opportunities for students to experience their training and study abroad. The aim is to motivate our students to improve their foreign language skills, proficiency in subjects in our curriculum and to develop their interest in cooperation with partners from other countries. Internalization is a natural process of the development of Vyšší odborná škola, Střední škola, Centrum odborné přípravy.

Our main goals within international cooperation are mobilities, joint projects and publication. These are:

- Study mobilities of students
- Traineeships mobilities of students
- Exchange and mobility of lecturers
- Exchange and mobility of administration staff
- Participation on joint projects
- Joint publication and teaching.

We seek partners with similar study fields and we are open to cooperate with schools and other educational institutions. Both European and non-European schools and colleges are welcome to join our partner network. We see Erasmus+ programme as a key tool to increase our international cooperation.
